

Mobilize.Net and CONNX Partner to Solve Legacy Database Modernization

Provides Data Modernization Capabilities to Global Customers

March 1, 2018 10:00 AM Pacific Standard Time

BELLEVUE WA--Mobilize.Net, provider of the leading automated modernization software for 90's legacy, today announced they have become an official reseller of CONNX Solutions. CONNX (a Software AG company) is a global leader in legacy data access and database solutions. Under this partnership, Mobilize.Net customers and prospects will have access to the full line of CONNX data solutions.

"Mobilize.Net provides code modernization solutions that deliver massive productivity boosts to IT shops, developers and enterprises," said Tom Button, CEO, Mobilize.Net. "We are excited to partner with CONNX to help our customers with their legacy data access requirements." those records that have changed.

Mobilize.Net and CONNX
Partner to Solve Legacy
Database Modernization

Mobilize.Net will offer the entire CONNX product line with special emphasis on DataSync for keeping data up-to-date without impacting performance; InstantdbSync for real-time database replication for replicating data from one source to another and even supports Relational to non-relational and cloud databases; Native DB adapters for IMS, VSAM, DB2, RMS, Oracle, DataFlex and many more.

"We look forward to working with Mobilize because we have a similar mission of helping customers modernize their code and data while reducing technical debt," said Harpal Gill, VP Global Alliances, CONNX. CONNX products can be found at <https://www.mobilize.net/CONNX>.

About Mobilize.Net

Mobilize.Net accelerates and simplifies the transformation of software applications to .NET, web, mobile, and cloud platforms. Millions of developers have used Mobilize.Net technology to successfully modernize billions of lines of code. Mobilize.Net solutions enable customers to reduce risk, cost, and time while moving applications to the platforms businesses demand today. Mobilize.Net migration technology is Microsoft's chosen solution for Visual Studio and MSDN customers. The privately-held Mobilize.Net is based in Bellevue, WA, and is led by former Microsoft Corporate Vice President, Tom Button. For more information, please go to <https://www.mobilize.net>

About CONNX by Software AG

CONNX Solutions is a leader in the data access, migration, integration, virtualization, and replication. Their solutions enable quick, secure, and scalable SQL access to legacy, non-relational, relational, and cloud data wherever it resides, however it is structured, without any change to your core systems. CONNX is quick and easy to set up and use and offers easy standards-based tools that are accessible, flexible, and scalable. Since 2001, CONNX solutions have been installed in more than 3,200 organizations worldwide and across a range of industries including government, manufacturing, education, technology, human resources, financial services, and telecommunications. CONNX's solutions unleash the power and value of information providing organizations the ability to make confident, evidence-based business decisions.
