

What's New...

CONNX12 SP2

InstantdbSync

CONNX InstantdbSync provides Real-time Data Replication/Synchronization, Real-time Change Data Capture and Real-time Data Warehousing.

The InstantdbSync solution gives companies the ability to seamlessly move data from a source database to any number of relational, non-relational, Cloud, desktop, or in memory databases for easier access, data reporting, and analysis.

KPiSync

CONNX KPiSync is a Mobile Application to help users 'Visualize their Key Business Metrics on any device in real time'. The CONNX KPiSync solution was designed with the purpose of providing users with a quick and easy method of delivering Key Performance Indicators from all facets of a business to users via any device, smartphone tablet, or PC.

CONNX Excel Add-in

The Excel Add-In allows for a quicker and easier data access to any data source within Microsoft Excel. The CONNX wizard will allow a streamlined connection and data selection for the over 120 supported data sources. CONNX extends Excel to allow for connection to multiple data sources and allows joins between tables from different data sources

SQL Server 2014 Support

CONNX offers full support for SQL Server 2014 in addition to SQL Server 2012, SQL Server 2008, SQL Server 2005, SQL Server 2000, including clustered index support on supported SQL Server versions.

New to CONNX 12 SP2

InstantdbSync Performance Upgrade

Re-architected update process to leverage an in-memory cache for real time performance under extreme data quantities.

KPiSync in SP2

Added user subscription capability to allow for individualized KPI's to be delivered to specific mobile users. Managers can create groups for different business units/departments.

SSIS Adapter improvements

New wizards to simplify the creation and deployment of CONNX SSIS packages in SQL Server.

CONNX Data Dictionary enhancements

Modernized CDD manager to be consistent with industry standard look and feel for faster and more intuitive user experience.

Installer enhancements

Modernized installer GUI to be consistent with industry standard look and feel.

Many, many, more ...

Several smaller features have been added to CONNX 12 SP2 as well. Please read the release notes for a full description.
